

20L Indoor Fan Forced Gas Geyser

RS20DH

The cutting edge 20L Gas Geyser Fan Forced Room Sealed is one of the safest and most efficient gas water heaters on the market. This gas water heater is equipped with many unique features and is constructed out of high-quality components. Versatile and compact.

- Heavy-duty copper radiator
- 88% energy efficiency
- Can be installed in confined and unventilated spaces
- Wind resistant burner
- Pressure Relief Protection (to function effectively, the valve must be set to your water pressure)
- Touch button temperature control
- Compatible with mixer taps
- Ensures constant temperature when multiple outlets are used simultaneously
- Compact design with a brushed aluminum cover
- Flame failure safety device
- Inverter compatible

C Type Install indoors or outdoors

For indoor installations you need a flue (RS20 standard or compact)
For outdoor installations you need a weather box & a flue

Max Gas Pressure 2.8 kPa	Rated Input 40Kw	Max Gas Consumption 2.9 Kg / hour	Water Pressure 25-500 kPa	Water Output (min/max) 2.5L - 20L / min	Rated Voltage 240V / 60Hz
IP rate IPX4	Rated Electric Power 45W	Unit Size 575 x 365 x 133 mm (+200 for flue)	Unit Weight 17.2 Kg	Packaged Size 740 x 430 x 220 mm	Packaged Weight 18.7 Kg

Weather Box Size Guide

Ensure the utmost protection for your outdoor gas geyser by installing a weather box (cover), shielding the appliance from severe weather conditions and potential damage. Additionally, these weather boxes effectively prevent birds from nesting on top of the geyser and significantly minimize corrosion caused by sea air. Crafted from galvanized steel, these weather boxes are resistant to rust and can also be powder coated for a sleek and stylish finish.

Fan Forced

- 20L FF Medium
- 30L FF Large

Constant Temperature

- 12L Large
- 16L Extra large

Eco-Flow Low Pressure

- 5L Small
- 8L Large
- 12L Large
- 16L Extra large

Diaphragm Activated

- 6L Small
- 8L Medium
- 10L Medium
